## **Reciprocity Policy**

Updated: June 2015

The University of Nebraska College of Law Career Development Offices' policy concerning placement assistance provided to students/graduates of other law schools is as follows:

- 1) Requests for reciprocity must be received from a career services representative, preferably via email (lawcareer@unl.edu), and should include the student/graduate's graduation date and current email address, and a copy of the requesting school's reciprocity policy.
- 2) Services are available to students/graduates of law schools that provide privileges to students/graduates of the University of Nebraska College of Law. Students/graduates of other Nebraska law schools are not eligible.
- 3) Reciprocity is offered at the discretion of the Director of Career Development and may be adjusted or terminated at any time.
- 4) The requesting law school's career services office will be notified when reciprocity has been granted, and a copy of the notification will be sent to the student/graduate. The student/graduate is required to bring a copy of the letter granting reciprocity to the initial office visit.
- 5) Services granted will be adjusted to mirror the terms and services of the requesting school (including blackout periods, if applicable).

Standard services are provided for a period of two months and include:

- access to hard-copy reference materials in the resource room (Room 179C)
- access to online job postings (Symplicity)

- 6) Renewal requests will be handled as new requests for reciprocity.
- 7) Reciprocity will be offered throughout the year, except during our blackout periods: August 1 to September 30 and January 1 to February 15.

Requests for reciprocity or any questions regarding this policy should be directed to:

Reciprocity Coordinator
